**TASK:** On the map, mark out the local landmarks and buildings that you would like to see protected.

1. Do you think we should seek to actively retain buildings which are of architectural or heritage value in our area?

2. Do you think we should have a greater influence upon the design of new extensions and developments?

3. On your street, can you name the best features for preservation, and describe what makes them great? (... And are there other instances that are not so great?)
